

## Physikalisches Kolloquium - Sommersemester 2012

| Datum      | Titel  | Vortragender   | Einladender        |
|------------|--|--|--------------------|
| 10.04.2012 |  |  |                    |
| 17.04.2012 |  |  |                    |
| 24.04.2012 | Order and Disorder in Two-dimensional Molecular Templates  | Prof. Dr. Peter Beton (School of Physics and Astronomy - Nottingham) | Prof. Dr. R.Berndt |
| 08.05.2012 |  |  |                    |
| 15.05.2012 | Dipolar Bose-Einstein Condensates with Weak Disorder       | Priv.-Doz. Dr. Axel Pelster, FU Berlin                               | Prof. Dr. M.Bonitz |
| 22.05.2012 |  |  |                    |
| 30.05.2012 | Festkolloquium für Prof. Bagge                             |  |                    |
| 05.06.2012 | Ultracold polar molecules                                  | Prof. Dr. Silke Ospelkaus, Uni Hannover                              | Prof. Dr. M.Bonitz |
| 12.06.2012 | The Atomic Structure of Nano-Objects: What X-Rays Can Tell | Prof. Dr. Andreas Stierle. DESY                                      | Prof. Dr. L. Kipp  |
| 19.06.2012 |  |  |                    |
| 26.06.2012 |  |  |                    |
| 03.07.2012 |  |  |                    |
| 10.07.2012 |  |  |                    |
